Description

The Tirène wedding dress is a vision of streamlined opulence, anchored by a precision-engineered bodice where corset seaming creates a clean, editorial silhouette. The strapless, straight neckline offers a pristine horizon, drawing the eye down to a gleaming jewel-encrusted basque waist that dips with an artistic curve. Designed in high-sheen satin, the expansive ball gown skirt acts as a vessel for light, cascading into generous folds that suggest a stately yet soaring energy. This dress strikes a balance between the strength of traditional style and a couture spirit, ensuring every turn reveals a new, polished facet of radiance.
